

CITY OF SPRINGFIELD  
INTER-OFFICE MEMORANDUM

ATTENTION OF 2 Memo to file

DATE October 27, 1977

DEPARTMENT

Re: Gasoline Spill at Cox Road  
& Republic Road, October 21, 1977

This office was notified on the above date by the Fire Department Dispatcher that an accident had occurred at the above location. The vehicles involved were an automobile and a fully-loaded gasoline tanker. The tanker had partially left the road and the trailer was leaning in the ditch, spilling gasoline through the filler caps on the top of the trailer. Bob Corson and I responded to the call and decided to order a dump truck load of dirt in order to form a dam in case the trailer proceeded to overturn and lose its entire load. The dirt arrived and was readied for use before the wreckers arrived to pull the tanker out. However, the tanker was pulled from the ditch without incident and a small quantity of dirt was applied to the gasoline and diesel fuel on the pavement. The truck belonged to Campbell Oil Company, Ozark, Missouri.
